

“SPRING IS COMING! Let’s Remember to be Environmentally Friendly.

As spring approaches and residents take steps to care for their lawns, bushes and flowers, please remember to be environmentally friendly. Here are a few simple tips that will help protect the environment and also keep your costs down.

- Only turn on [sprinkler systems](#) on when necessary and establish settings to conserve water – it will save both you and the Township money.
- Be mindful that overuse of pesticides and fertilizer wastes your money and harms the environment. [Learn to read labels and recognize low phosphorous fertilizers.](#)
- When planting, consider indigenous plants and flowers that help attract pollinators.
- When placing brush, leaves or yard waste at the curb, be aware of State regulations in regards to Stormwater run-off. This will help prevent flooding on your property and with carrying contaminants to streams.

Township Ordinances:

- [Pet waste disposal](#)
- [Litter control](#)
- [Improper disposal of waste](#)
- [Sprinkler Usage](#)
- [Feeding wild life](#)
- [Containerized yard waste & collection](#)
- [Illicit sewer connections](#)
- [Refuse Containers / dumpsters](#)
- [Private Storm drain inlet retrofitting.](#)
