

SUSTAINABLE MOORESTOWN

The Township of Moorestown is initiating the process to become a certified municipality in the State of New Jersey's Sustainable Jersey Program. The certification process is designed to bring social, economic, and environmental interests together to help Moorestown sustain their quality of life over the long term.

We would personally like to invite you, your organization and friends to join us and see how Moorestown will benefit from this initiative.

Sincerely;

Chester Dawson, Chairperson Moorestown Environmental Advisory Committee
Jacob Der Hagopian, Chairperson Moorestown Economic Development Advisory Committee
Thomas Ford, Director Department of Community Development

March 8, 2012

Auditorium, William Allen Middle School

7:30pm

Please join members of the Moorestown Economic Development Advisory Committee and Environmental Advisory Committee at the kick-off meeting for the Sustainable Moorestown program. Sustainability is a concept that involves all aspects of community life, and is a way for every member of the community to contribute to the good of the whole.

PROSPERITY

PLANET

PEOPLE

Come and learn how sustainability involves all 3 of those elements in an inter-related and overlapping way. Volunteers and creative thinkers are invited. There will be a Steering Committee to be appointed by the Township, along with committees to address every interest. Questions before the meeting can be addressed to Tom Ford, Township Director of Community Development, at the following:

Email: tford@moorestown.nj.us

We hope to see you there!
