

## **Join the Moorestown Bicycle Circulation and Safety Plan Effort Online**

A bicycle improvement and circulation plan for Moorestown Township is under development, funded by the New Jersey Department of Transportation – Office of Bicycle and Pedestrian Programs (NJDOT-OBPP). The plan will define a vision statement, goals, and objectives that will reflect the needs and desires of the citizens of Moorestown. The objective is to establish a comprehensive bicycle circulation plan to improve bicycle safety, and enhance non-motorized transportation opportunities to key destinations in the Township. Urban Engineers and Toole Design Group are the project consultants.

The plan will incorporate ideas and input from residents of the Township and from stakeholders, including the Bicycle Safety Task Force, the Moorestown Business Association, Moorestown Township Public Schools, Moorestown Friends School, Moorestown Police Department, local Township officials, and Burlington County.

A user-friendly web-based interactive map of Moorestown has been provided to help solicit feedback. The link to the interactive web map for the Moorestown project can be found at: <http://www.communitywalk.com/MoorestownBikePlan>.

On the website, you can provide detailed information about specific issues such as desired routes, challenging intersections or road segments, important destinations and other concerns. Please take a moment to go to the map and participate. Your participation is appreciated as a vital component in the development of a successful and meaningful plan. Please tell a friend and neighbor about this opportunity.

If you have any additional questions or comments feel free to contact Christopher J. Schultz, Township Manager at [cschultz@moorestown.nj.us](mailto:cschultz@moorestown.nj.us) or 856-235-0912 extension 3000. Thank you for your contribution to this important effort!
