RE: Lenola Town Center Improvements
Camden Avenue (CR 537) from Pennsauken Creek to Lenola Road
Public Information Center

Dear Resident,

You are invited to a Public Information Center for the proposed *Lenola Town Center Improvements: Camden Avenue (CR 537) from Pennsauken Creek to Lenola Road* project. The purpose is to inform the various stakeholders of the proposed plan for the project. **The virtual Public Information Center will be held Monday, December 14th, 2020, at 5 PM.**

Persons wishing to telephonically attend the meeting may do so by calling the number 1-201-523-5900 United States, Jersey City (toll) Conference ID# 533 461 845# or 1-833-450-2679 (Toll Free #) immediately prior to the beginning of the meeting. If you are unable to attend the meeting virtually, you can email questions or comments prior to the meeting (no later than 4pm the day of the meeting), to PBcomments@moorestown.nj.us. Please type "Lenola Town Center" and the meeting date in the subject line.

The meeting will also be broadcast via live stream on the Township's website. Please note that the livestream is not interactive, and you will not be able to participate in the meeting in this format. The live stream may be accessed by going to: <https://www.moorestown.nj.us/129/Agendas-Minutes>. Once the meeting begins, you will see a video camera icon in the column labeled "Media" next to the meeting date. You can click on the video camera to view the live stream. Please note that you will not see the video camera icon until the live stream begins.

The Township of Moorestown was awarded this federal Transportation Alternatives Program (TAP) grant to construct bicycle and pedestrian improvements along the Camden Avenue corridor. The project will add 5½- to 6½-foot wide bicycle lanes and a decorative flush median treatment throughout the corridor. Sidewalk, driveways and curb ramps throughout the project will be reconstructed to meet current ADA standards. Streetscape improvements include grass or decorative paver buffer strips with street tree plantings.

Proposed traffic calming measures include narrowed travel lanes, decorative crosswalks at intersections, raised median planters and speed monitoring signs. A signalized pedestrian crossing with a median refuge is proposed at the New Albany Rd intersection to provide a much-needed connection to the adjacent bus stops. This pedestrian signal will consist of pushbuttons and an overhead rectangular rapid flashing beacon sign.

The project will also fill sidewalk gaps along New Albany Ave and install a planted rain garden to capture the stormwater runoff. Raised median islands with shrub plantings are proposed to provide traffic calming and create a sense of place along with gateway signage at the western end of the project. Pedestrian-scale light poles with attachments for banners, flags, and other decorations are proposed throughout project limits to

enhance safety and walkability. Two sets of banner poles are proposed to advertise community events with banners spanning the roadway. Wayfinding and informational kiosk signs are proposed to highlight existing amenities in the community including the Camden Ave Pocket Park.

Again, questions to be addressed at the meeting can be emailed prior to the meeting to PBcomments@moorestown.nj.us. Please type "Lenola Town Center" and the meeting date in the subject line.

If you have other questions or concerns, please do not hesitate to contact me at (856)-793-0800 or VMAnepete@mccormicktaylor.com

Very Truly Yours,
